Residence *Layout* & Architectural *Features*

- Portico and entry at the center front, opening to the 30' foyer and the living room at the heart of the house.
- Gallery runs east from the living room to the library and two offices.
- Primary suite sits in its own angled wing at the east end, with sitting area, bathroom, two separate walk-in closets, & laundry room.
- Kitchen, breakfast room and wet bar sit in the angled west wing.
- A screened porch runs across the back of the house between the two wings.
- Guest wing to the southwest with its own guest living room, kitchenette, guest bedroom and bath.
- One wing is a bedroom, bath, playroom and office - the suite was built for Dr. Holton's son, Paul.
- The second floor includes a 12-seat theater, exercise room, half bath, kitchenette and additional unfinished attic space.
